Lowe's Plan Rack Spinner Display

Dear Tony:

I'd like to congratulate you and everyone at PFI Displays on a job well done. The Lowe's Plan Rack Spinner Display program was executed well from design to completion.

We've purchased three production orders totaling 1400 units and never received a problem call from the field. Every display arrived undamaged, with complete hardware sets, and easy to read setup instructions

PFI Displays did an excellent job. We appreciate your attention to detail.
