Dear Ms. Smith:

Just a thought...

PFI Displays, Inc. --located in Rittman, Ohio (near Akron) -- did a fabulous job on our booth. (Tony Tricomi - President 330.925.9015.)

We put our design criteria and specifications out for bid to 4 companies -- Nimlok, Skyline, Giltspur, and PFI. You would not believe the differences in prices and quality of product that is out there. Tony's team did an exceptional job on a short schedule. Our booth really 'wows' people! **He has the best run, customer service oriented business I have EVER dealt with -- in any field.** We had to drive 3 hours from Pittsburgh to deal with him, and let me tell you, when we were finished -- I'd have gladly driven 10 hours. PFI is *truly* that good. He even gave me a great lead that has turned into an excellent opportunity for my company.

Before you get too far with the company you are working with, give Tony a call. He will go the extra mile to put together a one of a kind, portable, modular, *incredible* booth for you!
